

MONETUM
better money

Monetum brings together legacy payment systems and crypto in an all-in-one solution.

Monetum is a first-mover to present a blockchain based **FIAT + CRYPTO + METALS** wallet in combination with a regulated Smart-Exchange running on the blockchain.

CHF

Monetum will simplify the use of cryptocurrencies for everyday payments, as simple as cash but better.

Monetum interlinks all funds in a single wallet. Everybody will be able to pay and receive in crypto or transfer crypto-assets easily back into FIAT funds. **Low fees, zero hassle.**

Our sister-brand runs an existing business that provides a successful and licensed FIAT-payment gateway solution.

Monetum is a Swiss company's project that ensures high quality and reliability. The project leverages the team's solid experience in the payments processing industry, with a proven track-record and a working business model.

Resources collected through the **ICO** will fund the roll out of this cost effective, secure and fast payment solution on a broad scale around the globe. Specially targeting emerging markets, focusing on E-commerce businesses and final consumers.
